## ALICE LAKE

Alice Lake Provincial Park is located a few kilometres north of Squamish on Highway 99. The two sandy shores and grassy areas of Alice Lake make it an ideal destination for a summertime picnic and swim.

## THE SQUAMISH OCEANFRONT

With consistent thermal winds, Squamish regularly experiences day after day of 20-25 knot winds from late morning to evening. These winds begin in early Spring (around the beginning of April) and end in late October with the best months being May to September.

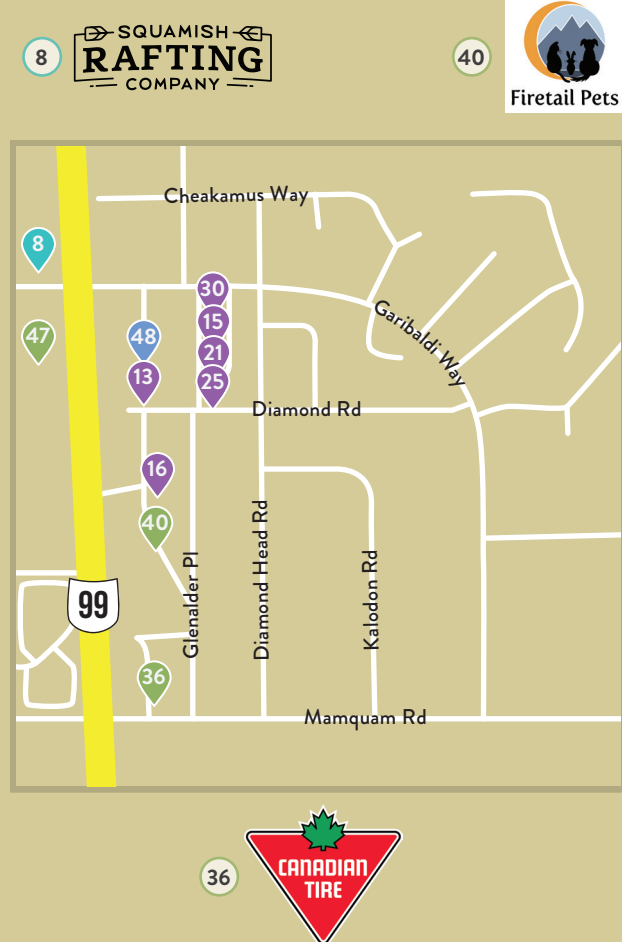

## THE CHIEF

The Stawamus Chief is one of the most famous landmarks in Canada, and an exciting and strenuous summit hike up the backside trail. Your effort will be rewarded by breathtaking views of Howe Sound, downtown Squamish and the surrounding white-capped peaks.
